

Passion for our market: finding competent solutions for your applications

We are partners of the subcontract industry – for over 35 years

Automotive, aerospace, hydraulics, pneumatics, medical technology. We provide technical solutions for various industrial sectors. Together with our manufacturing partners we work on finding the best result for your application. Alternative processes help to find the optimum match from small series to high volume production.

Good solutions for all your challenges

All is about quality, lot size and the overall most economic approach. You can count on us with your demand in die casting, gravity die casting, precision turned and machined parts, investment casting, plastic moulding parts and sheet metal parts. We understand your needs and support your projects from start to finish.

Customer projects as mirror of our collaboration

Our manufacturing partners and us are working for well-known companies from different industrial segments. We aim for a longterm loyal partnership to the benefit of our customers.
